You don't need to be a teacher, just have an ability to convey your skills and ideas. This is a great way to jump start your focus and meet new people. You will be greatly appreciated! A background check, interview and orientation are required but very doable. Whatcom Art Guild has played a big role in this program now for going on 6-7years!! CAPTURING LIGHT IN WATERCOLOR
Landscape Painting

Dear WAG members,

This month we are adding two new watercolor videos to our dvd library:

Capturing Light in Watercolor Landscape Painting by Thomas Schaller

Watercolor Painting: Light and Color in Waterscapes by Michael Reardon

These two dvds are focused on capturing the light reflected in water. Check these out and you will learn about:

- reflections and the movement of water
- ways to save whites to manipulate light within a painting
- tips to simplify complicated subjects as boats
- using warm and cool tones to create vibrancy
- working from light to dark • limiting paint to three values
- using composition and value to create dramatic effects

We now have 74 dvds to choose from in our WAG library! Our goal is to keep enriching your learning possibilities by including many topics in a multitude of medias. The cost of checkout is \$5 for a month. There is an additional \$5 charged for dvds turned in late. All of the money collected goes for purchasing new dvds.

Visit the library at the back table at the next general meeting. We would love to have your suggestions for future purchases.
